A note for all well intended: We understand that life gets busy. Sometimes you can't always make it to all the classes that you may have intended. If your card is going to expire, breathe new life into your remaining classes by purchasing a new card. To take advantage of this simply come into the studio and upon purchase of your new card we will roll all unused classes from your existing card onto the new one (equal or greater value only please). And with any luck, your life will get a little less busy and a little more inspired. As always thank you for choosing Brahma.
