200 Hour Teacher Training Certification Program

What is Brahma Yoga?

In the yogic tradition *brahma* signifies the “creative aspect in all things” and in Hindu mythology *Brahma* is the creator of the universe, the supreme being, universal consciousness, the highest reality. It is derived from the Sanskrit root *brh* (to grow, to become large); it denotes greatness in the sense of the infinite.

The essence of the style and practice of Brahma Yoga then is to “inspire the intuitive flow of creative spirit”. This is achieved by mobilizing the broad dimensions of yogic science and integrating these facets into an authentic and dynamic multi-style practice and teaching methodology.

Why teacher training?

Teacher training is implemented as a vehicle through which a wealth of personal growth, spiritual enrichment, and depth of yoga practice can bloom and flourish. Whether one chooses to use their training as a springboard to a career change; to refine and accelerate their own personal journey in revealing their true self; as a mechanism for more effective interaction with family and friends; or strictly for academic and philosophic evolution, each of these options is no less valid than the others. The mindfulness and intent is what matters and therefore the program is suited to a range of individuals with different levels of experience in yogic science.

What does the course encompass?

The 200 hour certification comprises 160 hours of training in the presence of the designated teacher trainers and 40 hours of independent study and practice (as a minimum). Its curriculum will extend over six months, reserving one weekend a month for intensive study. Written assignments and a daily personal practice are required. All necessary study materials (workbooks, manuals, etc.) will be provided. A list of supplemental texts will be suggested as adjuncts to facilitate study but will not required. The program is meant to evolve with each successive month so that the student is elevated from beginner understanding to that of intermediate awareness.

The course curriculum covers the full spectrum of yogic science as follows:

- Yoga as applied to body, mind, psyche and emotions.
- Overview of Ayurvedic principles
- Introduction to Sanskrit
- Examination of yogic philosophy and inner life
- Asana – morphology, movement, and application
- Pranayama – techniques and applications
- Meditation and guided relaxation
- Shatkarmas - purification and cleansing rituals
